April 10, 2010

Dear WAGIC Colleague,

Attached is the agenda for our April 2010 meeting.

This month's WAGIC meeting covers a wide spectrum of topics of interest to WAGIC members. We begin the meeting with three presentations. The first is entitled *Intermap 5 Meter Digital Elevation Model (DEM) Data Product for Washington*, by David Ward, Northwest Regional Sales Manager, Intermap Technologies, Inc. The second presentation by Dr. Tom Carlson, USGS Washington Geospatial Liaison, describes the *US Topo and Historic Quadrangle Scanning Projects*. The third presentation, by Kerry Brooks and Ian Von Essen, provides an *Overview and Highlights of NSGIC Mid Year Meeting*.

Next, Joy Paulus will provide updates on WAGIC GIS Strategic and Business Planning efforts.

We will conclude our meeting with our usual site roundtable, which is your opportunity to bring up issues or events of interest to the group.

The usual videoconference sites will be available for this meeting (please see site list below). For the latest information concerning WAGIC please visit the website at <http://wagic.wa.gov>.

**Available sites:**

*Bellingham:* Western Washington University – tbd - contact Gene Hoerauf at: [ghoerauf@comcast.net](mailto:ghoerauf@comcast.net)
